Office Action Summary

The response to the restriction requirement made in the previous office action has been made of record.

The restriction requirement made in the previous office action is hereby withdrawn. Claims 14-30 are pending.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14, 16, 18 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Crompton.

Crompton discloses heat resistant materials comprising phenolic resin/curing system (column 3, lines 43-44), inorganic fillers such as kaolin and glass (claim 2) and vermiculite (claim 8).

Therefore the reference anticipates the rejected claims.

Claims 15, 17 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 21-30 are allowed.
